Democratic Call.

Hon. F. A. Lyon, Sr., chairman of the Tenth District Democratic Congressional committee, has issued a call for a meeting of the committee to be held in Beattyville, Tuesday, June 28, at one o'clock p. m., for the purpose of fixing the time and manner of selecting a Democratic nominee for congress in this district.

To Democrats.

It is generally believed that the next House of Representatives at Washington will be Democratic if there is united and harmonious effort on the part of Democrats everywhere.

The Democratic National Congressional Committee is charged with much responsibility in furnishing a campaign book and other literature, directing speakers, and doing the general work of organization. We need your active support, especially in a financial way. Please send to the Democratic National Committee, Washington, D. C., a check at once, as we are greatly in need of funds to push Democrats to triumph. Our committee is sustained by voluntary contributions. We are reliably informed that the Republican committee is already generously supplied with money. Will you not aid us?

JAMES T. LLOYD, Chairman.
JOSEPH E. RANDELL,
Chairman Finance Committee.

The Summer of 1816.

Every now and then some one discovers that our winter and summer seasons are not what they used to be; that the thermometer nowadays is prone to capricious reverses, and that, as the rustic poet sings:

December comes in June
June comes in December.

Those who deplore the passing of the old-time summer, should look up the records of the year 1816, and note what happened then. 1816 was called "the year without a summer." There was a frost every month of the year. January and February were mild; March was blustering and raw; at the end of April snow fell abundantly and the brooks were ice imprisoned as in winter. In May the wondering buds and young plants were nipped ere they were aware and the corn was annihilated by an ice sheet that formed to the thickness of half an inch. In June snow fell three inches deep in New York and Massachusetts, and the destruction of growing things began in May was practically completed. On the

5th of July ice as thick as window glass was a common phenomenon in Pennsylvania, and in August there was ice half an inch thick. Pennsylvania farmers were compelled to pay \$4 and \$5 a bushel for corn for the next spring's planting. Winter seemed to set in during the latter fortnight of September; from that time forward ice and snow were at no time lacking.—Philadelphia Ledger.

Says Wives Spend Husbands' Money.

Mrs. Fred T. DuBois, wife of the United States Senator from Idaho, attracted the attention of the fourteenth annual Congress of Mothers' and Parent-Teachers' Association, recently held at Denver, Colo., by declaring: "The man of America is the real homemaker, not the woman. Who pays the rent, who buys the provisions, who sees to it that every need of mother and child is gratified? It's the father and husband."

"Men unconsciously, and many of them too silently carry out the kindergarten principle of the male bird story. They build and forage, while too often the woman demands more and more."

"The average American girl grows up and thinks only of marriage as a means to an end which is greater personal independence and liberty, which comes from assurance that all the bills will be promptly paid. The evil the Mothers' Congress must efface."

The bridge whist mother was denounced by Mrs. Edwin A. Yarnall, of Philadelphia, and Mrs. Orville T. Bright, of Chicago, as the worst enemy of the child.

All Appreciate It So Much.

BEMENT, ILL., June 20, 1910.

Spencer Cooper, Hazel Green, Ky.
Dear Sir:—The sample copy of THE HERALD was received last week and we all read the news with so much interest. It seemed like a letter from home, and we appreciated it so much.

We are now living in Bement, Ill., a nice little town of about 2,000. We have four churches and the finest public school in the county.

Enclosed find \$1 for subscription to THE HERALD.

Wishing you much success, I am, yours truly,

ROSIE LAWSON,
Bement, Ill.

For more than twenty-five years we have lived in Hazel Green and principally on hope. At times prevailing circumstances have made us a pessimist, but in the main we have been optimistic in our views and always had faith in the future. We now make the prediction that Hazel Green in less than six months will prove our faith. Oil will come in such quantities that we will have the oil field of Kentucky.

The lightning, hail and thunder storm of Sunday evening did considerable damage in this section. Among other things the lightning hit the pipe line telephone wire between this place and Campton and burned the wire in two. Line walkers were here Tuesday and yesterday trying to locate the damage and repair same, but up to yesterday evening had not been able to do so.

Ellis Boyd, of Honaker, Va., who married Mattie Evans, of our town, and is the father of little Raymond, the bright little boy visiting here with his mother for a week or so past, came in Friday evening to see his wife and her folks.

Mrs. Belle Godsey, who has been visiting friends and relatives at Frankfort and other points below for a week or so, came home Tuesday, very much pleased with the outing.

A BARGAIN IN BUSINESS.

DESIRING to change location two of the firm of Kash, Johnson & Kash are determined to withdraw, even though they sacrifice the stock. It is the opportunity for people who need goods, as everything will be sold at less profit than any other merchant in Eastern Kentucky can afford. HIT NOW, WHILE THE IRON IS HOT!

Preferably, however, we will sell the entire stock, invoiced, house and fixtures at a great sacrifice. This is the opportunity of a lifetime for any one who wishes to engage in the mercantile trade, as our health will not permit us to continue. Being on the corner of Main and Broadway it is the most desirable location in Hazel Green, for YOU CATCH TRADE "Gwine An' Acomin'." It is on the spot where once stood the old Pieratt Hotel, a celebrated hostelry in its day, famous all over Eastern Kentucky.

We want to sell in bulk, and if you'll meet us half way we can make a dicker.

Respectfully yours,
KASH, JOHNSON & KASH.

SELIM.

This finely bred combined harness and saddle stallion will make the season of 1910 at his barn in Daysboro, at the low price of \$5 TO INSURE LIVING COLT.

Money due when the mare proves in foal, or bred to another horse or jack, or traded away, and a lien on the colt will be retained to secure service money.

SELIM is a dark chestnut sorrel, 16 hands 3 inches high, with white stockings on hind feet. He is 7 years old this spring. He was sired by Pat Washington, a celebrated saddle stallion of Fayette county, and out of a mare by Golden Chief, combined horse.

DEMPSEY.

This fine young jack will make the season at the same barn at

\$5 TO INSURE A LIVING COLT,

on same conditions as those of the horse. DEMPSEY is a red sorrel, 14 hands 3 inches high, 4 years old August coming. He is out of a Black Mammoth Jennet, and by Sam Brown's Red Dempsey. Breeders who have seen him pronounce him a model jack.

All possible care taken to prevent accidents, but I will not be responsible should any occur.

Reports come from Campton that J. M. Reynolds, justice of the peace, had received a letter warning him to resign his office on the penalty of having his property burned. It is said that bootleggers are behind the threat.

The house owned by Sam Kash and occupied by Buck Hollon has been treated to a coat of white paint, trimmed with black, making it one of the most attractive houses in town. Sam Wilson did the job. Sam left Monday for Grassy creek to go onto another job.

Bill Foreman and another driller whose name we do not know are now drilling for oil on the farm of A. F. Johnson on Lacy creek, and there is a fine prospect of finding the fluid, as Mr. Johnson has been offered \$1,000 for his chance on the well.

Monday evening Sam Kash and wife entertained at supper quite a lot of friends in honor of their guest, Miss Ora Kash, of Mt. Sterling. Charley Cecil also entertained the same guest Wednesday at dinner, having with them Mrs. Kash.

Charley Rose and Carl Mize have gone into hog raising on a large scale. The former has 21 sows and 100 pigs, and the latter four sows and 31 pigs. If they have no bad luck and hogs continue at approximately present prices they will make money like Wall street brokers.

J. C. B. Little, jailer of this county, discovered that the prisoners confined in the jail were preparing to make their escape by sawing out the iron bars. A file and a saw made from a large steel caseknife were found concealed in one of the cells, and two iron bars were almost severed.

"For God's Sake Do Something."

We have answered this cry in our new book, "Fighting the Traffic in Young Girls," by Ernest A. Bell, U. S. District Attorney Sims and others. The most sensational indictment of the White Slave Trade ever published. It tells how thousands of young girls are lured from their homes annually and sold into a life of shame. The Cincinnati Enquirer says: "Of all the books of the season the War on the White Slave Trade is the most helpful; it should be read by every man, woman and child." Agents are making from \$8 to \$17 a day selling this book. Over 500 pages. Many pictures. Price \$1.50. Best terms to agents. Outfit free. Send 15¢ for forwarding charges. Book sent to any address post paid upon receipt of price. Address James E. Sharkey, Secretary, 228 Plymouth Court, Chicago.

KENTUCKY KERNELS

Carefully Collected and Concisely Chronicled.

William Hall, colored, accidentally shot and killed his wife at Palmouth recently with a shot gun supposed to be unloaded.

In the local option election held last week in Hancock county, the drys won by a majority of 800. Three years ago the drys won by 400 majority.

Sarah June Craft, at the age of 15 years, has taken unto herself a third husband in the person of a youth a few months her senior, in Letcher county. The bride has been divorced twice.

While digging a post hole near his home, three miles west of Stamping Ground, in Scott county, J. W. Hall uncovered a valuable vein of ore containing a large percentage of lead and a small percentage of silver.

The Breckinridge News tells of a man who is the father of thirty-one children. He was married four times and there is forty-three years between the first and thirty-first child. There seems to be no race suicide in that locality.

Statistics show that Garrard county is the largest hemp growing county in the United States, and Boyle county is second. There are 23,000 acres of hemp raised in the United States, and 20,000 of that acreage is found in Kentucky.

Dr. J. R. Shell, of Louisville, who recently purchased the stock of J. Brannan and George Waydelotte, of Louisville, in the mining prospects for barytes near Georgetown, has struck a four-foot vein of zinc and another almost as large of silver.

J. J. Brown was perhaps fatally injured and Larry Shang was instantly killed by being run over by an engine at Somerset. They were boiler makers from Cincinnati and had been working in the Q. & C. shops, but had quit work to return home.

The corner-stone of the Old Mason's Home, at Shelbyville, was last week laid with imposing ceremonies by John H. Cowles, Grand Master of the Grand Lodge of Kentucky. The Home is the only one of the kind in Kentucky and will accommodate 60 persons.

Newt Mason, an 18-year-old Mason county boy, committed suicide last week by shooting himself in the head with a pistol. About four years ago he accidentally killed a boy friend while hunting and this had preyed on his mind ever since.

The little two-year-old son of Max Mandel, of Louisville, toppled over into a candy bucket filled with water and was apparently drowned as a physician who was hastily summoned pronounced the child dead. Two policemen came along and resuscitated the child and it will recover.

Last February a local option election was held in Nicholasville and on the face of the returns the wets won, but the election was contested. The board of contest decided in favor of the wets and an appeal was taken. Last week Judge Benton of the Circuit court again decided in favor of the wets.

Dr. W. L. Nuttall, former superintendent of the State Feeble Minded Institute, who was tried for lunacy after his indictment at Frankfort last year for detaining a female inmate of the institute against her will, has been discharged from the asylum as cured, and it developed that the indictment against him was dismissed in April on motion of the commonwealth's attorney.

The charge of being accessory to the murder of Alma Kellner in St. John's church, in Louisville, last December, against Mrs. Lena Wendling, wife of the missing janitor, was dismissed last week by the prosecuting attorney. No clue to the whereabouts of Joseph Wendling, whom the coroner's jury charged with the crime, has been discovered, and he has undoubtedly left the country.

Accused of the murder of Wm. Culbertson, agent for the C. & O. railroad at South Portsmouth, Mrs. Sarah Higgins and Fred Ferguson were placed on trial the second time at Grayson last week. The woman, it is alleged, lured Culbertson from his work and Ferguson killed him. In the first trial the jury disagreed. The woman was sentenced to eight years as accessory to the crime.

Reports from various sections of the bluegrass are to the effect that some farmers have lost heavily in cattle as a result of clover blight, which seems to be more prevalent this year than for many years. This season white clover has made its appearance in abundance, its rapid growth being due to the extremely wet weather of the past month. The eating of the clover by cattle during wet weather causes them to swell, and in many cases die, and the losses in milk cows and cattle have been heavy this season, according to reports.

The seventy-fourth year of its existence finds the Toledo Blade more popular than at any period of its remarkable career. It is now read each week by more than a million people. Marvelous Discoveries
mark the wonderful progress of the age. Air flights on heavy machines, telegrams without wires, terrible war inventions to kill men, and that wonder of wonders—Dr. King's New Discovery—to save life when threatened by coughs, colds, la grippe, asthma, croup, bronchitis, hemorrhages, hay fever and whooping coughs or lung trouble. For all bronchial affections it has no equal. It relieves instantly. It's the surest cure. James M. Black, of Asheville, N. C., R. R. No. 4, writes it cured him of an obstinate cough after all other remedies failed. 50c and \$1.00. A trial bottle free. Guaranteed by all dealers.

Educational Thoughts.
Dear Mr. Cooper—Editor HERALD: Nothing affords me any greater pleasure than to see a copy of the dear old HERALD coming into our home on a Friday afternoon.

It is perused over and over, time and again, until every item is noticed.

And I am proud to see so many correspondents from the different part of the country. I can see where my schoolmates visit friends and their promotion in business life, which gives me sweet thoughts of the time past when I was in school among them at dear old Hazel Green.

I must say I enjoyed my school while in Hazel Green, and that I shall ever be ready to speak for the school and people of Hazel Green Academy.

Also, that I was very much benefited by being a student there. Again I wish to say that I am a co-worker in the cause of education and shall ever be ready to say something that will interest some idle boy or girl.

When I look around and see so much idleness, woe, and misery on the account of ignorance it causes a deep regret that there are no more people interested in the welfare of their children than there are.

Yes, we are told that our people are as bright, and that they are possessed with such great talent. Our dear old state ranks about 48 in the union in the standard of education. Why is this? We have secured high schools, academies and colleges throughout the state that are doing splendid work.

But the cause is, our people don't take enough interest in the rural schools. They keep their children out of schools on account of partyism, etc. And as long as this is carried out our people will not advance to a great extent.

Now, may God grant that the people of Eastern Kentucky awake to the duty they owe to their children and their neighbor's children and help them in the great struggle of getting an education.

And may the people who have the power to select and elect the teachers to instruct their children get the very best material in their country. Get those who are amply equipped and qualified for the work in which they are engaged. Do not pick up some one on account of relationship. Now, may the rural schools be better equipped with teachers, books, houses and grounds than they are, and may the young people press forward in the grand work; and may our people become highly educated and ready to meet the opportunities afforded them.

Thanking you for past favors and best wishes to you and the young people of Eastern Kentucky, I am very respectfully,
JAMES S. TESTER,
Lansaw, Ky.

A Woman's Great Idea
is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c at all dealers.
